

# Musings

Join us for a brand new speaker series celebrating the launch of *Muse* by Robb Report, in partnership with Spring Place. *Musings* is part luxury, part thought leadership, providing a unique live forum in which influential women—trailblazers, tastemakers, idealists, and disruptors—share their views and values on topics ranging from style, design, the arts, travel, wellness, wealth management, and philanthropy.

The four-part series will combine intimate tête-à-têtes between inspiring individuals who are truly changing—and leading the game—in their respective industries, along with topical panel discussions featuring a roster of influential speakers culled straight from the pages of *Muse*.

## Spring Place

---

*Long before today's cross-pollination of disciplines, Spring was fostering a global community of creators with a new way to work.*

*Spring has evolved with the needs of the community—growing into a co-working space, an integrated creative agency with end-to-end production, state-of-the-art studios, a home to prestigious events, and community space for creative leaders. Innovation begins with great creative minds. Spring is where they connect.*

*Spring is Creativity Connected.*

## MUSE

# Celebrating the launch of *Muse*

Women shape opinion, our culture, our economy and our world. Today's leaders in business, the arts, science and social change are intrepid, innovative and highly original visionaries—women who seek not only to cultivate their own talents and broaden their horizons but also motivate others to undertake their own voyages of discovery. *Muse* by Robb Report is by and for women of style, substance, and imagination—inspired individuals who inspire us. Meet the modern muse.
